**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Don't give in to the demands of these telecom giants like AT&T. They're 100% profit driven and would eliminate any competition at any cost. I used to be a DSL and home phone subscriber of AT&T but now a fiber optic subscriber with home phone service from a local company that is much smaller but offer 100% better service than the giant telecom provider. The Bay Area is supposed to be the tech center of the US if not the world but with AT&T monopolizing the communication particularly the internet connections then it would just further set back the area to a mere below the average internet connections and that in turn affect negatively the home users, business, schools, hospitals, governments and other establishments that rely on the internet to provide the efficient service they can .
